

1 Sign up

1. Scan the code to the right, or type **mystrigue.com** into your phone's browser.
2. Tap **Sign in** → **Continue with Google**.
3. Pick a **handle** (6+ characters — letters, numbers, _ or -) and enter your **first name**.
4. When your phone offers to **install the app**, say yes. It keeps you signed in and lets the game reach you with notifications during play.

No password to invent or forget — your Google account is your login.

2 Join the game

1. From your dashboard, tap **Join a Game**.
2. Enter the 6-character **session code** written below.
3. Enter the **password** as well, if the moderator set one. Otherwise leave it blank.
4. Tap **Request to Join**. The moderator approves you, and your character appears on its own — no need to refresh.

Once you're in

- **Your character page is home.** Your identity, your secrets, and the win condition only you can see.
- **Clues** unlock as the rounds advance. Read them, trade them, lie about them.
- **Events** are the votes that matter. Choose your response on your character page — the final round's outcomes decide who actually wins.
- **Stuck?** Everything troubleshooting-shaped lives at **mystrigue.com/troubleshooting**.
